Australian Made Performance Hose Fittings

## PRODUCT PRESS RELEASE

Part Number: 520-03W-08 (Example)

Date: 13/09/2021

Description: 520 Series Crimped Hose Ends

Introducing our new range of Fully Adjustable 520 Series Crimped Aluminium Hose Ends. Our 520 W Series alloy hose ends will replace the existing Non Swivel 520 Series hose ends to allow for 360° Adjustability once they are crimped making orientation for installation a breeze.

The 520 series hose ends are designed to be used with our 200 Series PTFE Smoothbore Hose, which is compatible with all modern automotive fluids and has become the go to hose in recent years.

The crimped hose assemblies produce a professional motorsport appearance, with an attractive, compact package.

Available in all angles from -6 to -12 with the expansion to -4 in the coming months.

Contact your nearest Speedflow dealer for more information
