

SPEEDFLOW

Australian Made Performance Hose Fittings

PRODUCT PRESS RELEASE

Part Number: 201-T05-06-BLK and 201-T06-06-BLK

Date: 1st Dec 2021

Description: -6 200 SERIES HOSE END TO HOSE TAIL ADAPTOR

Looking to convert your rubber lines to Braided Hose? Then look no further!!
Introducing Speedflow's 200 Series Swivel Hose End to Hose Tail Adaptor.

These 200 Series T Series Joiners are the perfect way to convert your rubber lines to braided Teflon lines without having to use multiple joiners in between two hose ends. These also feature a swivel to allow 360° rotation of both hose's for easy alignment once assembled.

Constructed from 6061-T6 Aluminium, Black Anodised finish and incorporating a Viton O-Ring internal seal, this fitting provides a professional compact option of joining two different types of Hose's.

Available in 5/16" and 3/8" Hose tail size's these are a must for your Speedflow inventory for your next build.

Contact your nearest Speedflow dealer for more information

** Speedflow Recommend using a Hose Clamp when installing onto the rubber hose**
