

SPEEDFLOW

Australian Made Performance Hose Fittings

PRODUCT PRESS RELEASE

Part Number: 618-T05-06-BLK and 618-T06-06-BLK

Date: 8th Oct 2021

Description: HOSE TAIL ADAPTER TO -6 MALE

Looking for a simple way to convert your fuel pump or hose tails to a AN Fitting, Look no further!! Our new 618-T Series adapter's work perfectly for converting your 5/16" or 3/8" hose tails to a -6 AN Male fitting.

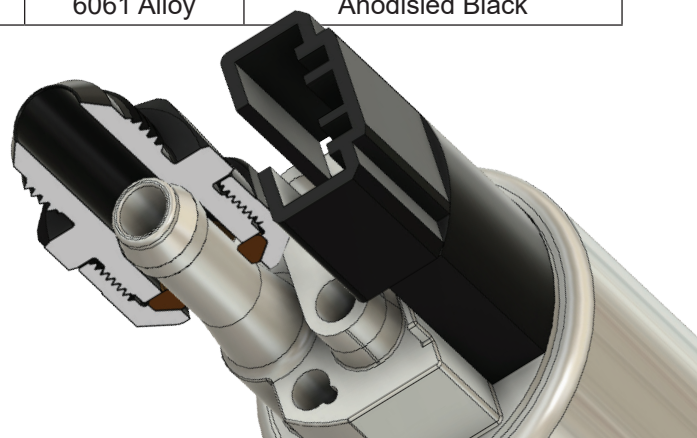

Constructed from 6061-T6 Aluminium, Black Anodised finish and incorporating a Viton O-Ring to seal the fitting onto the appropriate hose tail, you won't get much better than these fittings.

With this simple screw together fitting in your inventory, you won't need to weld a male fitting on, or use clamps when converting appropriate hose tails to AN Male threads anymore.

Contact your nearest Speedflow dealer for more information

** Note: The O-ring requires a parallel section to seat and seal. Maximum Barb Diameter: 5/16" = 0.375" or 9.5mm 3/8" = 0.457" or 11.6mm**

Part Number	Description	Material	Coating / Colour
