RACE

and have fun.

Subject to modifications and errors. Status 11.2017

Nico Hülkenberg

Size does not matter: exact copies of our helmets in 1:2 scale. Just like their big brothers, the miniatures are designed by the same designers who work on our racing helmets, and handmade by a team of highly qualified technicians using high-tech components to construct the shell, inner lining and visor.

A driver's helmet is a personal signature, a unique identifying feature. An exclusive range of SCHUBERTH

helmets, selected from the exciting racing series – Formula 1, Formula E, World Endurance Championship (WEC), are now available as 1:2 miniatures. The mini-helmet-range will grow continuously. Helmets of additional drivers from more and more series will become available in the future.

For dealers, an attention-grabbing range extension. For fans, an exceptional collector's item.

SCHUBERTH

SF2^{PRO}

SCHUBERTH

THE BEST FOR THE BEST.

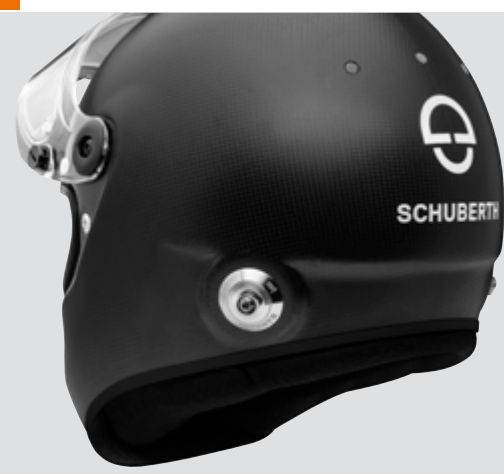

Tailor-made in Germany.

TIMO BERNHARD

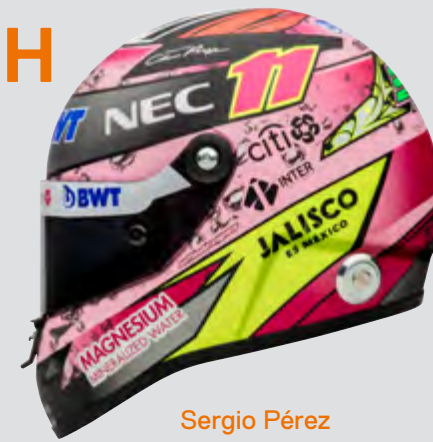

Feel at home on the race tracks of the world, where one second can make all the difference. The SF2 PRO benefits from our years of Formula 1 experience. This expertise is reflected in every helmet detail: minimal weight, attachable sun peak and new ventilation scoops help keep you cool headed and focussed. Anyone who has driven the 24 hours of Le Mans or competed in the NASCAR series will understand the importance of perfection, even in the smallest details. Although they may not be noticeable in the first few minutes, they may end up being the key to racing success.

SF2^{PRO}

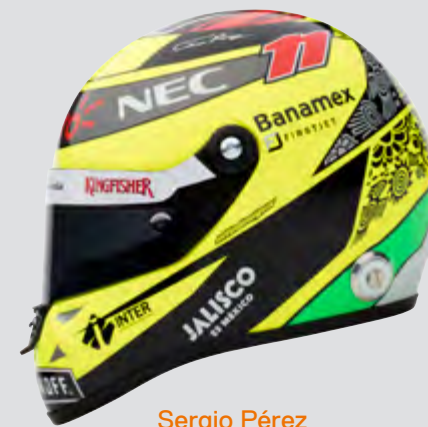

- Tested to highest standards
Helmet: FIA Standard 8860-2010
Snell SA/2015
H.A.N.S. System: FIA Standard 8858-2010
