

BRITISH COMPANY

GET THE EDGE

RACE & RALLY BASE LAYERS (aka underwear!)

www.walero.uk

INNOVATION

Unimpressed by the base layers on the market, one racing driver was determined to deliver a more efficient, innovative and elegant solution.

INSPIRATION

Racing demands only the most advanced technology.

Walero applies the same principle to the fabric. And the fit.

So here it is:

- Our base layers are FIA & SFI approved
- They use the same Outlast™ technology created from NASA (yep astronauts!) which stops your body from becoming too hot & too cold
- They're made with Fantex, a cutting-edge antimicrobial
- They also help reduce sweat by up to 30%
