

# DYER'S TOP RODS: THE FASTEST WAY TO A MILLION DOLLAR PAY DAY!

Photo by Josh James

Dyer's Top Rods were in Jonathan Davenport's engine powering his number 49 to victory lane in Eldora. Nine of the top ten finishers at Eldora ran with Dyer's Top Rods!

This is the second Eldora Million to be won with Dyer's Top Rods. Donnie Moran took home a million from Eldora in 2001 with Dyer's Top Rods in his engine.

**If Dyer's Top Rods are not in your engine it's time to have a talk with your engine builder!**

Our connecting rods are manufactured from 300m steel forgings, which is 20% stronger than 4340 steel. The unique H Beam design, with a double banded cap for ultimate strength to weight ratio.
