CONNECT?

WHEN YOU INVEST IN A SET OF THE WORLD'S FINEST HIGH PERFORMANCE SILICONE HOSES, YOU ARE NOT ONLY UPGRADING YOUR BIKE. YOU ARE CONNECTING TO A FEELING, AN ATTITUDE AND A RIDING THRILL ONLY SAMCO SPORT CAN GIVE YOU.

Legendary riders such as John McGuinness, Tom Sykes, David Knight and Jonathan Rea are all connected to the SAMCO SPORT brand **Are YOU?**

▶ THE SIGN OF QUALITY, TRUSTED IN MOTORSPORT

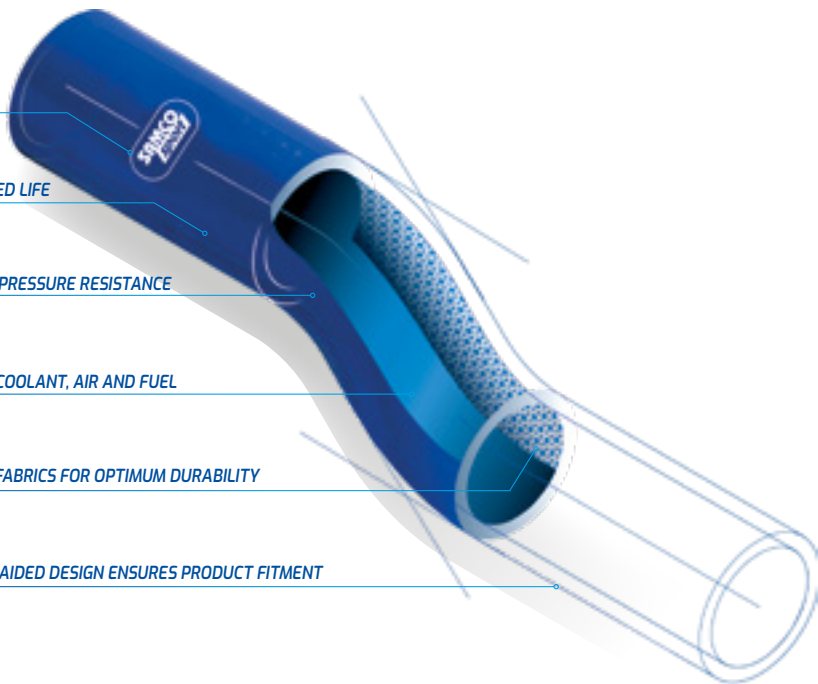

▶ EUROPEAN AUTOMOTIVE SILICONE FOR EXTENDED LIFE

▶ MULTIPLE LAYERS FOR IMPROVED PRESSURE RESISTANCE

▶ SPECIALIST LINERS FOR OIL, COOLANT, AIR AND FUEL

▶ PREMIUM QUALITY FABRICS FOR OPTIMUM DURABILITY

▶ COMPUTER AIDED DESIGN ENSURES PRODUCT FITMENT

VICTORIOUS ON THE TRACK

SAMCO SPORT is the world leader for performance silicone hoses, having been the number one choice for premier global motorsport teams, tuners and modifiers for over a decade. SAMCO SPORT has been victorious across multiple track disciplines from British and World Superbikes, to World Endurance, and Moto2. SAMCO SPORT is also the brand of choice for many production based road racing teams and multiple TT winners.

▶ PERFORMANCE YOU CAN FEEL

Whilst SAMCO SPORT hoses undoubtedly look cool, they are primarily designed to give your bike a performance advantage over OEM/Stock hoses and they do this in a number of different ways. In addition to saving weight, they are made from high-grade European silicone which offers much better stability at the high operating temperatures and pressures encountered during racing. Additionally, flow rate and heat transfer to the radiator can be improved whilst expansion and deformity under load is reduced. Finally, durability from road and track debris and crash resistance are massively increased – in fact, SAMCO SPORT hoses are guaranteed for life.

As a performance upgrade you won't find another bolt on component which offers the same 'bang for your buck'.

▶ HAND-CRAFTED IN BRITAIN

SAMCO SPORT is a 'MADE IN BRITAIN' accredited brand. Globally renowned as one of the world's leading motorsport centres, the MADE IN BRITAIN marque helps riders identify the 'Britishness' of our brand – our skilled designers and craftsmen have been designing and hand-making each and every Samco Sport Hose in Britain for over 20 years.

▶ RACE PROVEN

The worlds greatest riders and race teams have specified Samco Sport for over a decade making Samco Sport the most successful performance hose on the market. These riders run the exact same hose kits available to the general public, meaning you can experience the same performance product as the stars.

Handcrafted in Britain.
Victorious around the world

VICTORIOUS IN THE DIRT

Specified by multiple world champions including legends such as 'Greatest Of All Time' John McGuinness and David Knight. Top teams from multiple classes of motocross, enduro and trials insist on SAMCO SPORT to give their riders the edge at the limit. The very same hose kits are available to all levels of rider.

▶ THE ORIGINAL AND STILL THE BEST

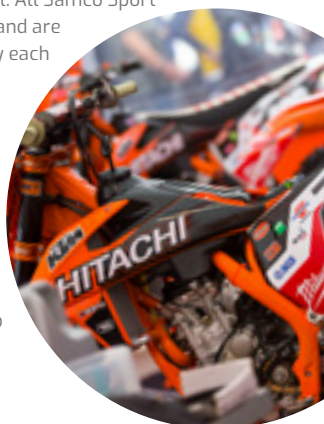

SAMCO SPORT pioneered the development of direct replacement high performance silicone hoses, and are universally acknowledged as making the finest kits available. Unique within the performance hose market, Samco Sport operates a world class R&D lab in the UK which drives development and helps keep the brand on top.

▶ THE QUALITY ADVANTAGE

Not all hoses are equal. Samco is a premium professional grade component which has earned its reputation as 'No1' for a reason. Samco Sport invests in the finest European silicone which is used throughout the range, as is the brand's trademark blue SamTek® lining material. All Samco Sport hoses meet or exceed strict SAE J20 standards and are manufactured under ISO 9001:2015. Additionally each hand crafted hose undergoes a rigorous quality inspection before it can leave the factory.

▶ GET THE LOOK

SAMCO SPORT hoses are available in a wide range of original and premium solid colours allowing the rider to choose a hose which either compliments or contrasts bike livery or team colours. Samco have also developed camo pattern designs and a 'Blaze' range.
