EIBACH SPRING SYSTEMS

Eibach SPECIAL
EDITION F/P

PRO-KIT

Performance Springs

- Precision wound hi-tensile steel alloy, cold-formed, tempered and shot-peened for long-lasting performance and durability
- Progressive spring design for excellent ride quality
- Lower center of gravity - lowers vehicle up to 1.5"
- Engineered and tested to work perfectly with stock dampers
- World's leading performance suspension spring system

SPORTLINE

Performance Springs

- Motorsport inspired handling and appearance
- Precision wound hi-tensile steel alloy, cold-formed, tempered and shot-peened for long-lasting performance and durability
- Lower ride height-up to 2.3"
- Progressive Design for balance of sport performance and excellent ride quality
- Engineered and tested to work perfectly with stock dampers

SPECIAL EDITION

PRO-KIT Springs

- Engineered for limited production vehicles
- Precision wound hi-tensile steel alloy, cold-formed, tempered and shot-peened for long-lasting performance and durability
- Progressive Design for balance of sport performance and excellent ride quality
- Lower ride height-up to 2.3"
- Precision hand finished coil-ends
- Special Edition matte black coating
- Engineered and tested to work perfectly with factory electronic damper systems

DRAG LAUNCH

Competition Springs

- Controlled weight transfer provides maximum traction and reduced wheel spin
- More consistent power transfer for launches
- Lower 1/4 - mile ET's
- Precision wound hi-tensile steel alloy, cold-formed, tempered and hot-peened for long-lasting performance and durability

EIBACH STABILIZER BAR SYSTEMS

ANTI-ROLL-KIT

Performance Stabilizer Bars

- Performance tuned sway bars for improved handling and reduced body-roll
- Perfectly balanced for optimum neutral-steering handling and precise turning response
- Precision formed hi-tensile steel alloy, cold-formed, tempered and shot-peened for long-lasting performance and durability
- Greasable urethane bushings for increased responsiveness
- Precision forged ends and OEM style pressed bushing locators

REINFORCEMENT BRACE

Stabilizer Support System

- Protects from potential damage using high rate stabilizer bars
- Reduces flex during high lateral loads
- 6061-T6 billet aluminum construction
- Precision fit components

ADJUSTABLE END-LINKS

Custom and Vehicle Specific Systems

- Adjustable length for optimized stabilizer bar angle
- Developed and tested for street and off-road performance
- Heavy-Duty applications include Aurora® rod ends
- Hex ends and knurled body for easy adjustment
- Systems sold in pairs

EIBACH WHEEL SPACER & ALIGNMENT SYSTEMS

A close-up photograph of a silver metal wheel spacer. The spacer has several hexagonal bolts protruding from its surface. In the foreground, a red Eibach suspension component is visible, with the brand name 'EIBACH' printed vertically on it. The background is dark and out of focus, showing the perforated surface of a brake disc. The overall image is high-contrast and professional.

PRO-SPACER

Wheel Spacers

- Exact fitment by using minimal production tolerances, resulting in exceptional wheel balance
- All applications tested in rigid durability and fatigue tests
- Made from high-tensile-strength aluminum alloy
- High-grade corrosion protection through a special coating process (salt spray test according to DIN 50021)
- Significant weight advantage compared to wheel-spacers made from steel
- Available in standard or black finish

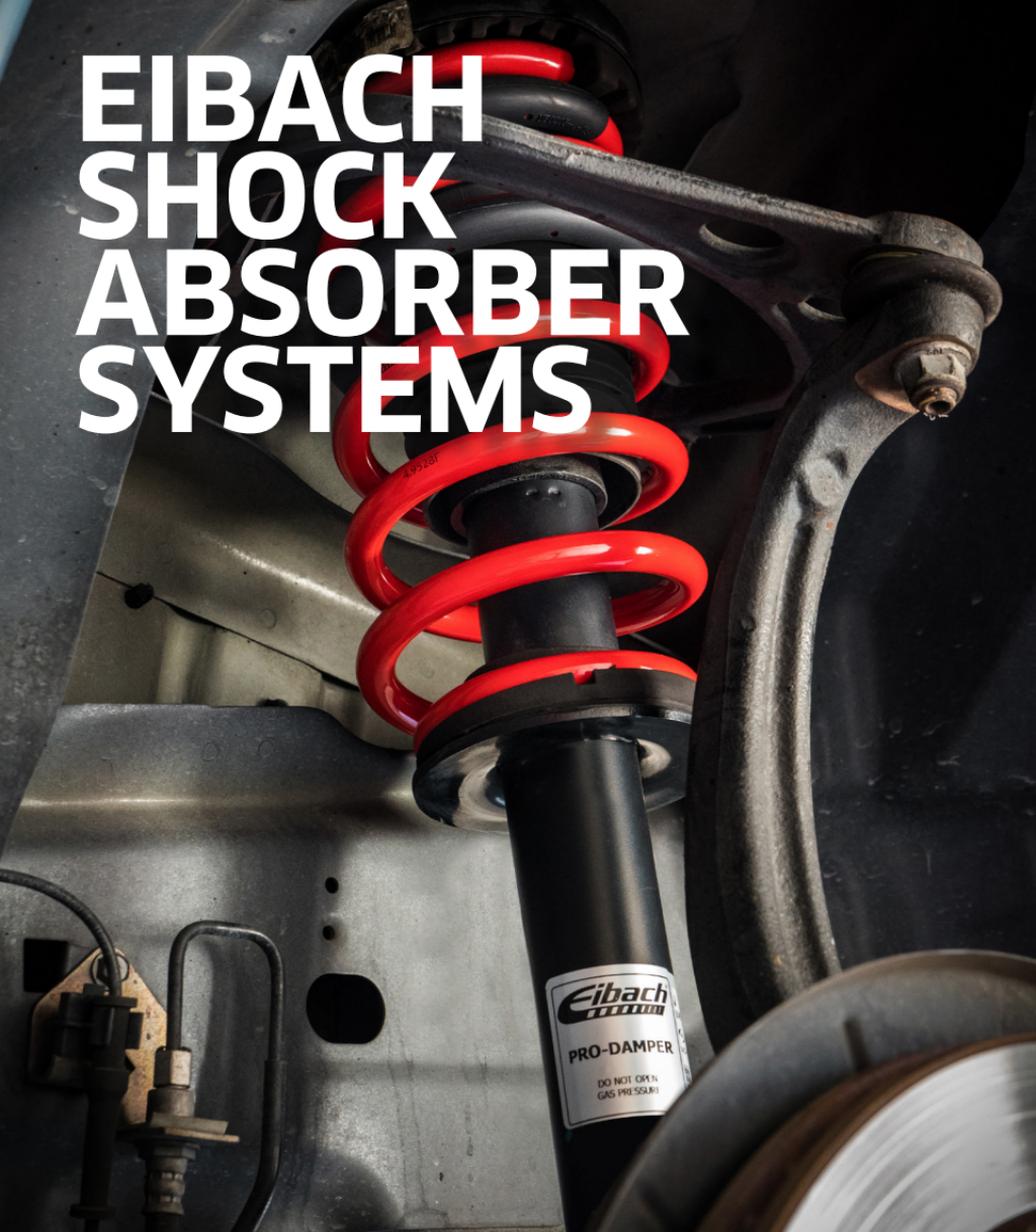

PRO-ALIGNMENT

Adjustable Suspension Components

- The perfect solution to correct excessive negative camber and prevent uneven tire wear
- Wider range of camber adjustment suitable for street or track tuning
- Compatible with all sport-lowered suspensions

EIBACH SHOCK ABSORBER SYSTEMS

Eibach
PRO-DAMPER
DO NOT OPEN
GAS PRESSURE

PRO-DAMPER

Performance Shocks

- Improved high performance handling and stability
- Precision tuned damping to match PRO-KIT & SPORTLINE spring systems
- Controlled, compliant ride quality
- Easy-direct replacement

EIBACH SUSPENSION SYSTEMS

PRO-PLUS

Performance Springs and Stabilizer Bars

- Matched performance springs and sway bars = superior handling for the serious enthusiast
- Precise turn-in response, improved handling and enhanced cornering
- Grip-in any performance driving situation
- Stop quicker and corner faster

PRO-SYSTEM

Performance Springs and Shocks

- Precisely balanced system of dampers, springs and bump-stops
- Dramatically improved handling, comfort and control
- Exceptionally smooth ride quality
- Easy-Direct Replacement Installation

PRO-SYSTEM-PLUS

Performance Springs, Shocks and Stabilizer Bars

- Precisely balanced combination of springs, shocks and sway bars
- Improves turn response and increases cornering speed
- Body roll reduction through design stiffness over factory components
- Controlled, compliant ride quality

EIBACH COILOVER SUSPENSION SYSTEMS

Eibach
Warranty Void if Removed
164032

PRO-STREET-S

Adjustable Ride Height Coilovers

- Performance tuned damping for maximum control
- Adjustable lowering – lowers vehicles 0.8” to 3.0” (depending upon vehicle type)
- Optimal tuning for street comfort and performance
- High grade materials used for extended service life

ERS

Eibach Race Spring Systems

- Over 1,500 single components in metric or imperial sizes and rates
- Ultra-lightweight for reduced unsprung mass
- Maximized spring travel and smallest solid heights for full range of motion
- Each spring individually tested and preset to block
- High dynamic durability-under motorsports conditions
