MY UPGRADES

The value of purchasing upgrades

Purchasing Upgrades significantly increases your visibility on the EPARTRADE parts sourcing platform and provides new opportunities to capture the attention of industry decision-makers and buyers.

When you purchase an Upgrade for an individual product, your listing automatically rises to the top of the PRODUCT SEARCH. An Upgraded listing not only includes your company profile and logo, but allows you to post a product photo and description, as well as video, technical information and other valuable content.

More importantly, Upgrading allows you to tailor your online presence to your precise needs, as often as you want, in order to attract buyers' interest and enable them to connect with your company directly, anytime, from anywhere.

Among their many benefits, Upgraded listings allow you to:

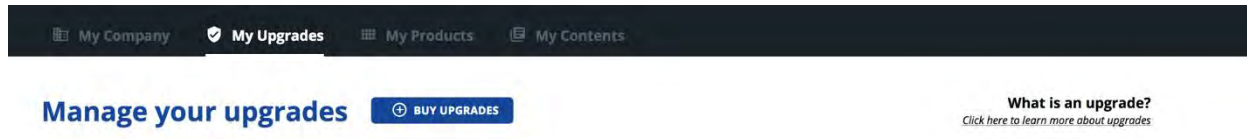

1

Upload photos and technical descriptions of newly released products within your upgrade categories.

2

Upload photos and technical descriptions of existing products of your choice that call for most

- 3.6) Back on the MY UPGRADES page you can purchase your first Upgrade by clicking the BUY UPGRADES button.

- 3.7) On the BUY UPGRADES page you can select the number of Upgrades you wish to purchase. The amount of content you can upload correlates directly with the number associated with the package of Upgrades purchased. You can use the numbers at the bottom of the page to navigate this function, as well. NOTE: Purchasing five Upgrades will get you the UNLIMITED content.

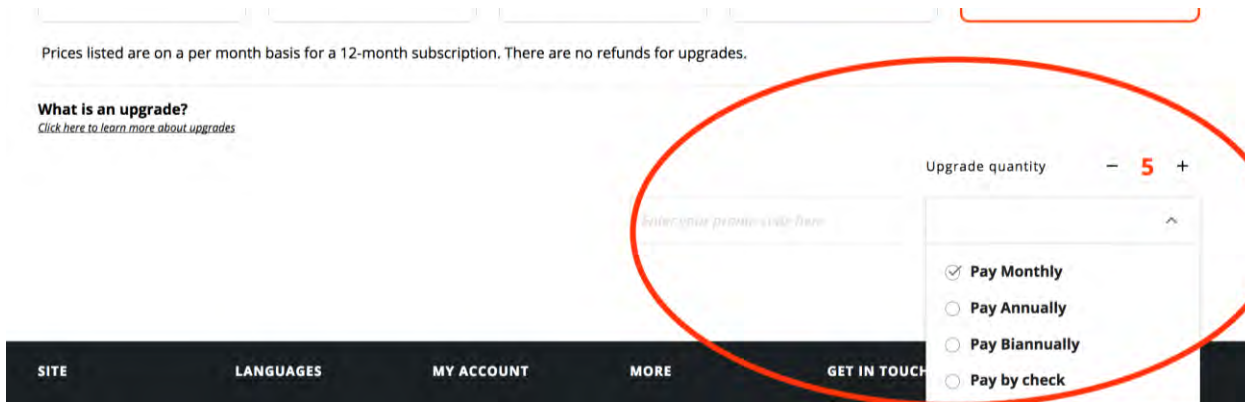

Price per month starts as low as \$99.
