The screenshot shows a search interface for suppliers. At the top, it says "List of Suppliers (80)". Below that is a search bar with "Brake Fluid" selected. Underneath is an "ADVANCED SEARCH" section with filters for "BY NAME", "BY COUNTRY", and "BY STATE". The main content area is titled "Featured Companies" and shows "28 results". The first result is for "920ENGINEERING", which is part of the Liberty Vehicle Technologies group. The listing includes a logo for SHIFTEC and 920, a description of their services, and a "SUPPLIER" tag. There are also buttons for "SAVE TO MY LIST" and "GO TO COMPANY". A red arrow points from the search results area to a banner ad on the right. The banner ad is for "halo. P1 SPECIALIST RACING BRAKE FLUID" and features the text "BE THE LAST OF THE LATE BRAKERS".

TECH TIPS FROM EPARTRADE.com

Tech Tips: CTech Manufacturing

The Five Tenets of Garage & Trailer Cabinetry

Cabinetry is key to an organized garage or trailer. Suitable cabinets can boost payload, improve productivity, and more. Storage solutions come in many shapes and sizes, from plastic totes to toolboxes, netting, and even bags. However, one storage solution rises above the rest: the humble aluminum [Econo cabinet](#) from CTech Manufacturing. But why?

The organizational tenets listed below provide a practical answer to this question. These are essential considerations for garage and trailer owners looking to invest in a new storage solution. With over 30 years in business, [CTech Manufacturing](#) knows what customers expect from a high-performance cabinet.

Materials

Proper building materials are crucial to longevity. Composite wood is a standard option because it's easy to work with, but moisture can quickly break it down. Steel is cheap and robust but incredibly heavy and susceptible to corrosion. Although more expensive, aluminum is the preferred construction material for trailer and garage cabinets.
