ESI RACE TRACK SAFETY SERVICES

The ESI Race Track Safety Service has four business verticals. These are Response Team and Vehicles, Responder training, Technical and Equipment support and newly created Equipment Lending.

RESPONSE TEAM AND VEHICLES

- The RTSS response staff is a group of hand-picked experienced track responders that have worked or currently are with national series or large track crews. Personnel are trained through their series classes, ESI courses and most carry SFI certifications in Fire/Rescue and/or Jump Medic Response.
- RTSS currently has three response vehicles that are fully equipped with fire suppression, rescue and recovery tools. Another fully equipped skid can be added onto any pickup truck to create a fourth response vehicle. Pickup trucks can be used for track cleanup utilizing the Super Duster device.

TECHNICAL & EQUIPMENT SUPPORT

- ESI Race Track Safety Services provides technical support and equipment to a number of series, sanctioning bodies, and tracks. During a race season, ESI supports track response training and has a presence at national race events. Included in this are trailers filled with personal safety gear and equipment that is setup on event weeks catering to the responder's needs.

ESI RACE TRACK SAFETY SERVICES

RESPONDER TRAINING

- ESI Race Track Safety Services supports the International Council of Motorsport Sciences (ICMS) program and was part of the group that initially established the Race Track Safety Program (RTSP). ESI personnel helped develop and have become SFI-certified instructors and travel throughout the US conducting SFI training programs for fire/rescue/EMS responders.

EQUIPMENT LENDING

- ESI Race Track Safety Services provides rental and leasing of track equipment. Rental of larger expensive equipment allows tracks the use of this much needed equipment for events, without the need to purchase items that are only used a few times a season. ESI RTSS rents The Super Duster, Fire/Rescue pick-up skid inserts, Holmatro rescue tools, Enforcer CAFS systems, extinguishers, hand tools, driver extraction devices and much more.

ESI RACE TRACK SAFETY SERVICES

The RTSS Response staffing includes up to four-track responders per vehicle that include:

- Firefighter
- Medic/Firefighter
- Driver/Crew Chief

ESI RTSS has two fully equipped vehicles available to support various series and track services during special or national series events. These vehicles are pickup trucks that are equipped for:

- Fire suppression
- Extrication
- Driver extraction
- Medical intervention
- Straight-line tows
- Track clean up

See the separate truck equipment list

Additionally, ESI RTSSS has a Support Trailer that provides:

- Equipment and supply storage
- Changing areas for crew members
- Small galley for food and beverage
- Space to transport a golf cart and training props

ESI RTSS has a gas-powered Golf Cart for on-track transportation. This cart can be equipped with an Enforcer 10 CAFS fire suppression unit. LED emergency lighting is installed on the upper roof panels.

Official Partner of the AMR
INDYCAR Safety Team

The ESI Race Track Safety Services Division concept came from years of experience providing technical support and training services to on-track teams, dating back to 1990 when ESI supported the IndyCar/CART/Champ Car safety teams. ESI has usually been behind the scenes supporting track services with safety equipment and training several safety teams throughout the years.

Enforcer Air 3

The Enforcer Air 3 is an extremely versatile 3-gallon portable firefighting system that utilizes high energy compressed foam technology with a dedicated refillable air tank which requires no stand-alone charged air cylinders. Enforcer Air 3 can produce up to 60 gallons of finished foam.

Enforcer 10 CAFS

A unique small CAFS system that contains 10 gallons of foam solution and produces up to 200 gallons of finished foam. It also produces a foam structure that can stick to horizontal and vertical surfaces thus providing a vapor barrier between the fuel and air.

Enforcer 30 CAFS

A versatile 30 gallon firefighting system that utilizes high-energy compressed foam technology and produces up to 600 gallons of finished foam.

Firebull Foam

Compatible with all regular and all standard Class A and Class B equipment. Excellent extinguishment through Rapid Cooling. GreenScreen Certified™ SilverFirefighting Product. UL Certified EXE 28900

Obexion

The Obexion FR is a mobile-ready solution specifically designed for first responders to efficiently mitigate lithium battery risks. Engineered for extreme conditions, the container's interior can withstand temperatures exceeding 1700°C.

2.5 Gallon Pressurized Water Extinguishers

A pressurized extinguisher that can use water or foam.

Ansul Redline PK 20lb. Extinguishers

A portable fire suppression designed for Class B and C fires. These are filled with Purple K.

Fire Suppression Tarp

Toxic Tarp Fire Suppression Blanket is a carbon fiber solution designed to give first responders an advantage in vehicle fires.

Diablo Blades

We offer a wide variety of Diablo Blades.

Oil Dry Containers

Storage unit designed to hold and dispense your oil-absorbing materials.

Tow Ropes and Clevis

Includes flatline towing and roll over kits.

Hoop Bars

Used for flat-line towing on open wheel cars.

Super Duster

For fast, efficient clean-up of liquid spills, the Super Duster spreads your absorbent material in a consistent, even pattern. Available for rent. For more information, please call 1-800-574-8228.

Skid

Safety skid inserts for a standard pick-up truck bed. These allow your track to be prepared for emergencies when you need them. Available for rent. For more information, please call 1-800-574-8228.

FOD Razor®

The FOD-Razor® Sweeper is a user-friendly, highly effective tool for collecting Foreign Object Debris (FOD). Designed for reliable performance across various surfaces. Available for rent. For more information, please call 1-800-574-8228.

Vehicle Catch Cushion

Vehicle Catch Cushions are heavy-duty, air-controlled deflation devices that allow an overturned vehicle to gently settle back down in an upright position when uprighting with a winch, wrecker, crane, or recovery rotator.

Sidewinder Jack+

The Sidewinder+ Jack was engineered to hold greater weights with mission-built features that work under extreme rescue conditions, specifically for use on automobiles and light-duty trucks.

Mini Cutter

Mini Cutter by Holmatro: compact, versatile, and immediately ready for action. This cordless tool makes any rescue set complete.

Standard Crash Bag Kit

Designed to start initial stabilization and allow for quick entry for patient assessment in any vehicle. Includes: Milwaukee 6 in 1 Professional Multi-Bit Screwdriver, Milwaukee Cable Cutters, Milwaukee 10" Adjustable Wrench, Milwaukee 9.5" Tongue and Groove Pliers, Ajax Strip and Peak Pry Tool, Medical Shears, Spring-Ring Window Punch, Junkyard Dog Industries Seatbelt Cutter, 4 Tire Valve Deflators/Inflators, Lenox Hacksaw, x4 Spare 12" Hack Saw Blade, GlasMaster Windshield Saw & Center Punch, Kovenex® Rapid Response Rescue Blanket, Junkyard Dog Industries water-proof vinyl Carry Bag

Rubber Wheel Chock Sets

Quickly stabilize and lift a variety of items in any scenario.

Halligan bar-36"

A 36" Halligan bar allowing you to easily break through doors, windows, walls and other barriers.

We are a Milwaukee Dealer

We sell a multitude of Milwaukee tools. Including reciprocating battery saws and JYD blade holders. For more information, please visit www.esiequipment.com.

X-Pouch Kit

The durable, versatile X-POUCH secures necessary hand tools comfortably at the rescuer's side. **Kit contains:** Milwaukee Adjustable Pliers, Milwaukee Cable Cutters, Milwaukee 6-in-1 Screwdriver, Ajax Strip & Peek Tool, Stanley® FatMax® Utility Knife w/ Spare Blades, SWAT-T™ Tourniquet, JYD™ Seatbelt Cutter, JYD™ Ringed Center Punch, EMT Trauma Shears, Streamlight ProPolymer HAZ-LO LED Flashlight, Tire Deflator/Inflators, x1 Spring Ring Center Punch

X-the-Bleed Trauma Kit

The X-the-Bleed Trauma Kit is a portable first-aid bleeding control kit. **Kit Includes:** Red JYD X-Pouch Bag, Chito SAM 100 Chitosan Hemostatic dressing 3" x 4' (CT100-B-EN), SAMS Medical Bleeding Control Kit (KT901-V-EN), Medical Gloves, Medical Shears, Compressed Gauze, Permanent Marker, Emergency Bandage (6" wide), SAM Medical XT Extremity Tourniquet Nylon Hi-Viz Orange, Instruction Card, LED Hand Light

A/B Trauma Kit

The A/B Trauma Kit is a portable first aid breathing and bleeding control kit. **Kit Includes:** Chito SAM100 Chitosan Hemostatic dressing, Compressed Gauze, LED Hand Light, Medical Shears, Medical Gloves, Permanent Marker, Dynarex Resp-o2 Nasopharyngeal, I-gel Supraglottic, Airway, Blue X-Pouch

PAX Rescue-Boa

For safe and efficient driver extrication, the boa fits around the neck and the arms to develop a vertical lifting system. No pressure on the neck, and the hand holds provide lifting points.

Cervical Collar

An inflatable collar that can be easily adjusted by inflating or releasing air. It is designed to withstand extreme cold and heat. Its compact, packable size ensures easy storage and convenience on the go.

Vacuum Mattress Kit

Vacuum Mattress conforms to the body shape, filling voids and providing complete comfort during transport.

MED Boards

Body and leg straps, head cushions, and straps. Along with an included carry bag.

Rupture Seal

Instantly Stop ruptures, leaks, or spills ranging from 5/32 to 6 inches on tanks, bladders, and more. Compatible with gasoline, diesel, and over 40 chemical families.
