# BECOME A DEALER

---

Turn 14 Distribution views the dealer-distributor relationship as a long-term partnership; because of this, we are highly selective when choosing new dealers. Provided that a Dealer fits our requirements they are introduced to Turn 14 Distribution's proprietary solutions by a New Accounts Sales Representative who handles account set up. Upon successful completion of the New Accounts period Dealers are assigned to a Market Specialist whose knowledge and expertise aligns with their business. All new customers are required to place an opening order at a specified size, typically called a Buy-In, to have an account with Turn 14 Distribution. Turn 14 Distribution's Buy-In policy and Dealer requirements creates a sufficient barrier to entry into the automotive aftermarket which protects Turn 14 Distribution's current partners. While our process is involved it is because we are focused on building a long term mutually beneficial relationship with our Dealers.
