BADDEST. RAM. EVER.

The 2021 RAM TRX is the most powerful production street-legal half-ton pickup ever built. But why on earth would you only drive it on the street?

TRX is a performance truck and an off-road truck, designed to keep you in command of all 702 horses across ever-changing terrain.

Underneath its hood is the legendary supercharged Dodge HEMI V8, which has fueled the modern muscle-car era with such incredible vehicles as the Challenger and Charger Hellcats.

Off-road is no longer off-limits to Hellcat power thanks to the TRX's 11.8 inches of ground clearance, 13-inches of front suspension travel and 14-inches of rear suspension travel, Bilstein Black Hawk e2 shocks, a flat-bottom steering wheel, eight drive modes and launch control.
