**NO PROJECT IS
 TOO SMALL OR TOO BIG!**

Eide is the one-stop solution for custom design, digital graphics, fabrication and installation for your mobile marketing and hospitality needs!

Every canopy project is custom built in-house to conform to the exacting standards of your transport trailer.**

All our mobile canopy frames are manufactured using lightweight structural aluminum rafters and tubing with quick-release attachments for easy setup and takedown.

We use advanced fabric welding processes on all top deck seams to enhance the appearance, allow for an expansive advertising display, and increase the strength for maximum weather protection.

Engineered systems up to 50 MPH Wind Loads are available.

**Sportsman Lite not included.
