YEARS *Plus*

ENGINE BUILDING PROFESSIONALS

are vital to the growth of the automotive and heavy-duty service industries. You are vital to all of us at Elgin Industries, as well.

For more than 100 years, our company has maintained an intense focus on the needs of engine building businesses of all sizes. And we have never lost sight of our mission to be your best partner and strongest advocate.

As the industry emerges from the coronavirus crisis (the second pandemic in our long history), we pledge to continue to provide superior quality, performance and value in every part we manufacture.

Let's work together to make the months and years ahead a period of strong growth, outstanding partnership and – of course – world-class engines!

A handwritten signature in white ink, appearing to read 'William H. Skok', is positioned above the name of the president.

–Bill Skok, President

**Make Elgin
Your Complete
Camshaft
Headquarters!**

OE cams for today's most popular engines:

- Small block & big block Chevy
- Small block Ford
- Muscle Car cams with OE Numbers
- Marine, RV and more

* GM named this cam "Showroom Stock" specifically for Corvettes to compete in GT Cup racing against Ferraris and other "Stock" class applications. This cam is fairly radical and is not recommended for street use as advanced level tuning is required.

PUSH RODS & ROCKER ARMS

RACE-WINNING PERFORMANCE

One-Piece Performance Push Rods

Elgin Rocker Arms

Elgin offers a variety of push rods for the Gen III, IV and V engine platforms. Our industry-leading one-piece push rods are manufactured from black-oxidized chrome-moly 4130 material and feature a .110 wall and 210-degree radius end. These are available in a wide range of sizes for stock and modified valvetrains.

- PR-15725 – 7.250"
- PR-15730 – 7.300"
- PR-15732 – 7.325"
- PR-15735 – 7.350"
- PR-15737 – 7.375"
- PR-15740 – 7.400"
- PR-15745 – 7.450"
- PR-15752 – 7.525"
