

Who Works in Formula One

First published in 1990 and celebrating in 2019 its 30th consecutive year of publication Who Works in Formula One has become **the guide** to the world premier motorsport championship. Each new edition records the details of all those involved in Formula One in meticulous detail and with a total commitment to accuracy. **It's still the only guide dedicated to providing yearly updated information on the people and businesses in the sport.** Our concept is simple and unique – to give the reader access to an exclusive database of information on key people: their bios and career summaries, **addresses, phone numbers, email, facebook twitter and website addresses**, listings on commercial and technical sponsors, suppliers details, the media, teams, cars, engines, engineers, circuits, event promoters and race officials.

It's the reference tool for Formula One professionals, industry leaders and enthusiasts.

Book, E-book & App available for the 1st Grand Prix
