

THE WORLD'S SAFEST,
FASTEST & MOST EFFECTIVE
MOTORSPORT **DEBRIS SWEEPER**

In 1994, Aerosweep revolutionized track safety with the FOD*BOSS, the world's first friction debris sweeper. Since then, the **FOD*BOSS Tracksweep** has become the industry standard for motorsport debris collection, trusted by large international facilities and small regional tracks alike.

/ Unrivalled debris collection

Patented debris collection and retention unmatched by any other product.

/ Engineered for performance

The FOD*BOSS Tracksweep is designed to last up to 4,500 miles / 7,200km's.

/ Low operating cost

Save up to 98% compared with alternative sweeping.

EFFICIENTLY COLLECT >99% OF TRACK DEBRIS

Simple & Secure
Attachment

Patented Debris
Collection & Retention

Shake to Empty Debris

SWEEP YOUR TRACK AT UP TO 40mph / 65kph
